What's in Season

This month's special bouquet featuring fresh cut red amaryllis arranged with holiday greens in a tall glass vase is only \$34.95. Code DEC1.

About Amaryllis

Amaryllis is known for its bright colored, large blooms. The genus name Amaryllis comes from the Greek word "amarysso," which means "to sparkle." In Greek mythology, it was the name of a shepherdess who shed her own blood to prove her true love, and in so doing inspired the naming of this bright red flower.

This bulb flower originates from Holland. Our fresh cut Amaryllis are ordered direct from trusted farms in Holland and shipped straight to our Central Design Center on Ashland and Fulton. Our flower processing team uses proper care and handling techniques to prepare them for design. Farm fresh, they are designed and hand delivered to your door or someone you love!

Celebrate with us

December 1: Happy Anniversary to **Diane S.** whose HR skills keep us all balanced, while she also balances the books. Diane has been a part of the Ashland Addison family for... get this, **34 years!**

Happy Anniversary to **Marty and Brian**, who joined our team when we opened our Westchester location 3 years ago! Marty knows the western suburbs like no other, as a driver for that location. And Brian has the smile that greets our WCH customers while he's running the show there. Rumor has it, he's a master on the grill as well.

December 2: Happy Birthday to **Star**, who is the super helpful customer service representative at our Elk Grove location!

December 14: Happy Anniversary to **Caroline** who joined our Prentice team two years ago. She's now at our Design Center. If you see an extra bounce in Caroline's step as she buzzes the shop, it might be her Shape Ups!

December 20: Happy Birthday to our Dispatch Manager, Jeff. Does Jeff know exactly how long it's going to take a driver to get from Wilmette to Winnetka? We answer that question with Jeff's favorite response, "You bet."
