What's Fresh in August

Our August special includes bright, assorted roses professionally arranged in a vase with greens and filler for only \$37.95. Find this gorgeous bouquet on our web site or in any of our retail locations!

Tips on Keeping Your Roses Fresh!

- Always remove any leaves that may have fallen under water, taking care not to cut through or scrape the green bark. Leaves in the water could cause a bacteria.
- Recut stems by removing 1-2 inches with a sharp knife and place roses in a clean, deep vase of water containing a flower food provided.
- Check the flower food solution daily and make sure to keep it full, clean, and fresh. If the solution becomes cloudy, replace it entirely.
- Keep your roses in a cool place, out of direct sun and drafts.

Spice Up Summer Picnics & Barbeques

by Jeanne Benedict from www.aboutflowersblog.com

Summer is all about relaxing in the great outdoors while spending time with friends and family. Two of my favorite ways to celebrate the season are serving inventive fresh food

and decorating with imaginative floral arrangements. But, you still want to keep things "easy breezy" so you can enjoy your get together and catch up with guests. Even though most summer gatherings are casual, a theme is still a good idea as it streamlines planning. You probably have some delicious recipes or colors in mind, so why not choose a theme based on them.

Touch base with your florist who will have some amazing floral decorating ideas that will enhance your gathering and hold up in the heat. Here are a couple of summer entertaining ideas to get you started.
