

## we've caught the green bug!

Reuse Recycle

... and get 'green'!

We're launching our first ever reuse/recycle campaign for Chicagoland—and giving out green plants and making donations to local charities!

We've caught the "green" bug, and we're offering an

easy way for our customers to turn their old vases, ceramics and baskets into GREEN...green plants and green cash donations to local charities!

"One of the things we hear is that people have vases, baskets or ceramics from flowers they have received piling up in their basements, under their sinks, in closets... and they feel guilty just throwing them out," says Bill Sheffield, president and owner. "It's time to help out and get these glass, wicker and ceramic containers reused or recycled! So, in exchange for people turning in their old stuff, we're giving out green plants to bring more 'green' into homes. Plus, we wanted to do more, so we're making financial 'green' donations to important local organizations."

### Being Green Has Never Been Easier!

It's so easy! Simply bring your glass, ceramic and wicker containers to any Ashland Addison Florist location in July and August. For every five reusable containers brought in at one time, customers will receive a green plant and will have a \$3.00 donation made on their behalf to one of the following charities.

\*Misericordia Heart of Mercy [www.misericordia.org](http://www.misericordia.org)

\*Lynn Sage Cancer Research Foundation

[www.lynnsage.org](http://www.lynnsage.org)

\*Children's Memorial Hospital

[www.childrensmemorial.org](http://www.childrensmemorial.org)

... More Chicagoland charitable organizations will continue to be added. Check back to our web site at [www.ashaddflorist.com](http://www.ashaddflorist.com) or stop in any of our retail locations for an updated list.

Ashland Addison Florist will evaluate each container to see if it is able to be reused and filled perfectly with amazing fresh blooms again. For containers that are not able to be reused, they will be recycled. Donations to the local organizations will be made in September after the reuse / recycle program is completed. There is the possibility that we will continue to accept containers throughout the year!
